SANTA BARBARA ACADEMIC COACHING PRESENTS:

Summer Classes with Laura Donner!

Nuestro Mundo/Our World

Beginning Spanish Class for students entering grades 2-5.

In this week-long class, students will learn basic commands, vocabulary words, and phrases through singing, playing games, and movement. Participation and practice will be encouraged in a safe, non-threatening environment. No previous Spanish skills required!

Build-It Festival

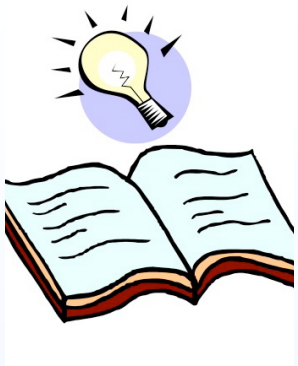
Math Camp for students entering grades 2-5.

Weaving mathematics concepts into engaging, hands-on construction activities, this GEMS festival includes a wide assortment of activities that emphasize construction, geometric challenges, and spatial visualization. Students will make two- and three-dimensional shapes with blocks, follow paper patterns, work with pattern blocks, create tessellations, explore symmetry, and build structures with newspaper dowels.

Writing in the Garden

Writing Class for students entering grades 2-5.

Students will write paragraphs and stories about the outdoors and garden using five different genres: poetry, persuasive, descriptive, personal narrative, and response to literature. Each student will make a Garden Journal using a stick-binding technique, and will produce a Garden Book, which will integrate drawing with all of their final-draft writing.



At Santa Barbara Academic Coaching, we work to help every student succeed in all areas of learning. Through one-on-one teaching and small group classes, we help students gain confidence, increase classroom competence, improve organizational skills, enhance study habits, and more! For more information on how SBAC can help your child succeed, contact us. For students in grades 6-college, please email Bernie Donner to set up a free 30 minute consultation: berniedonner@cox.net.
